# CHAIRMAN'S REPORT

As interim Chairman of the Australian Music Performance Committee (AMPCOM), I am pleased to confirm that compliance with the Australian Music Code component of the Commercial Radio Codes of Practice remained high during the 2004-2005 financial year.

It's also pleasing to report that, over the period, commercial radio across Australia enthusiastically embraced new Australian releases from artists such as Missy Higgins, Pete Murray and Eskimo Joe, as well as continuing to support established Australian artists including Kylie Minogue, Powderfinger and Delta Goodrem.

One of the key objects of AMPCOM is to monitor compliance with the Australian Music Code to ensure commercial radio broadcasters fulfil their role in developing and reflecting a sense of Australian identity, character and cultural diversity.

AMPCOM assists in maximising the exposure of Australian music on commercial radio through monitoring and reporting on levels of Australian music being broadcast by each commercial radio station across Australia. During the past twelve months, AMPCOM has continued to exercise this monitoring and audit role and is currently comprised of a broad range of representation from various industry groups each providing valuable input and direction.

As mentioned in the last report, AMPCOM is currently seeking to appoint an independent chair as required under the Australian Music Code. Discussions on a replacement have progressed and we hope to finalise and announce an appointment shortly.

Finally, I'd like to express my personal thanks to all my colleagues on the committee for their time and support and look forward to ensuring the success of Australian music in the years to come.

**Stephen Peach**

Interim Chair of AMPCOM

## OBJECTS OF AMPCOM

The Australian Music Performance Committee (AMPCOM) is a voluntary association comprising of an independent chairman and representatives of Commercial Radio Australia (CRA), the Australian Recording Industry Association (ARIA), the Australian Music Publishers' Association Ltd (AMPAL) represented currently on AMPCOM by delegates from APRA and AMCOS, the Musicians' Union of Australia and the Media Entertainment and Arts Alliance (MEAA). Representatives of the Australian Communications & Media Authority (ACMA) may attend Committee meetings in the capacity of observers.

### THE OBJECTS OF AMPCOM ARE:

- To maximise the exposure of Australian music on commercial radio, having due regard to the availability of appropriate broadcast-worthy material and the needs and preferences of the Australian listening public.
- To monitor the commercial radio industry's observance of the Australian Music Code of Practice (the Code).
- To monitor the music industry's production of Australian music performances and composition.
- To monitor the effects of the Code on performers, composers, producers of sound recordings, musicians and broadcasters.
- To review the operation of the Code and to recommend changes to it as considered necessary.
- To consider such other matters, relevant to the above objects, as the Committee thinks fit.

# OBJECTS OF AMPCOM CONTINUED

## IN PURSUANCE OF THESE OBJECTS:

- a) The Committee will meet at least quarterly.
- b) CRA will use its best endeavours to ensure that stations treat the Code requirements as a “safety net” only, in anticipation that the majority of licensees will exceed the requirements, subject to the availability of suitable material.
- c) CRA undertakes to provide regular reports to AMPCOM (including but not limited to stations’ APRA log returns) on the performance by CRA members in relation to the Code, and to produce and publish an annual report (in the event no such report is published by the Australian Communications & Media Authority) which will show individual licensees’ performances.
- d) ARIA undertakes to provide regular reports on the production and viability of sound recordings featuring Australian and non-Australian music in the categories identified in the Code.
- e) The parties agree that, having regard to the current nature of the Australian music industry and the extent to which Australian artists perform Australian compositions, the interest of Australian composers are protected by the Code. The situation will be monitored.
- f) AMPCOM will be responsible for deciding into which category each station’s format falls, if a dispute about that matter arises.

(These objectives are “Attachment A” to The Code, the balance of which is reproduced within this report.)

# THE AUSTRALIAN MUSIC PERFORMANCE<sub>CODE</sub>

## INTRODUCTION TO THE CODE

The Australian Music Performance Code is Code 4 of the Commercial Radio Codes of Practice. The purpose of this Code, dated December 2001, is to promote the role of broadcasting services in developing and reflecting a sense of Australian identity, character and cultural diversity, by prescribing minimum content levels of Australian music, in line with the objectives of the Broadcasting Services Act 1992.

As a result, quotas have been adapted by the commercial radio industry, setting out the minimum levels of music performed by Australians which is to be broadcast. The Australian content requirements are based on five categories from A to E into which all stations fit. There are different music formats under each category. Typically, stations that play the most popular music (eg. Mainstream Rock and Contemporary Hits) are found in Category A (the highest quota of 25%). See the table on page 7 of this report for details of quotas for other categories.

To follow is a copy of the Code, which is extracted from and is part of, the Commercial Radio Codes of Practice and Guidelines (available in full at [www.acma.gov.au](http://www.acma.gov.au)).

# CODE OF PRACTICE 4:

## AUSTRALIAN MUSIC

### PURPOSE

- 4.1** The purpose of this Code is to implement the object, set forth in the Broadcasting Services Act 1992, of promoting the role of broadcasting services in developing and reflecting a sense of Australian identity, character and cultural diversity, by prescribing minimum content levels of Australian music.

The commercial radio industry is committed to supporting the music of Australian artists and composers. The quotas adopted by the industry depend upon the availability of Australian music to suit station formats. The commercial radio industry will continue to encourage the increased production by the record industry of Australian music relevant to stations formats and the preferences of the Australian listening public.

### BROADCAST OF AUSTRALIAN MUSIC

- 4.2** Subject to this Code, a licensee must ensure that during the Australian Performance Period, either:
- (a)** The applicable proportion of the total time occupied by the broadcasting of music by the radio service consists of music performed by Australians; or
  - (b)** In the case of a licensee which broadcasts musical items of a reasonably similar duration, the applicable proportion of the total number of musical items broadcast by the radio service consists of musical items performed by Australians.
- 4.3**
- (a)** For the purposes of clause 4.2, the applicable proportion of total time or total number of musical items (as the case may be) in respect of a radio service must be determined based upon the predominant format of the service in accordance with the following scale:

CATEGORY	FORMAT OF SERVICE	APPLICABLE PROPORTION
A	Mainstream Rock Album Orientated Rock Contemporary Hits Top 40 Alternative	Not less than 25%
B	Hot / Mainstream Adult Contemporary Country Classic Rock	Not less than 20%

# CODE OF PRACTICE 4:

## AUSTRALIAN MUSIC - CONTINUED

CATEGORY	FORMAT OF SERVICE	APPLICABLE PROPORTION
C	Soft Adult Contemporary Hits & Memories Gold - encompassing Classic Hits News Talk / Sports Talk	Not less than 20%
D	Oldies Easy Listening Easy Gold Country Gold	Not less than 10%
E	Nostalgia Jazz NAC (Smooth Jazz)	Not less than 10%

- (b) In the case of a radio service whose format is within categories A, B or C of clause 4.3(a), the broadcast of New Australian Performances as a proportion of total Australian Performances prescribed by this clause shall be in accordance with the following table, when calculated across all Australian Performance Periods occurring in any financial year, subject to clause 4.3(d).

CATEGORY	News Australian Performances as a Proportion of Total Australian Performances
A	Not less Than 25%
B	Not less than 20%
C	No less than 15%

- (c) The commitment on the part of licensees to play a minimum level of New Australian Performances in accordance with sub-clause 4.3(b) is subject to the release of such Performances by the Australian record industry in numbers that are substantially the same as those released in the financial year ending 30 June, 1998. If, in any financial year during the time that this Code is in force, there is a substantial decrease in the release of New Australian Performances, CRA may revise the proportions of New Australian Performances as a proportion of total Australian Performances, contained at clause 4.3(b), after discussion with AMPCOM, provided that any change that may eventuate will not affect the licensees obligations under clause 4.2 and 4.3(a).
- (d) Clause 4.3(b) does not apply to a licensee that does not include New Releases in its weekly play lists, having regard to its format.

# CODE OF PRACTICE 4:

## AUSTRALIAN MUSIC

- 4.4 For the purposes of clause 4.3, the category into which a radio service falls must be nominated by the licensee and if any dispute arises as to the appropriateness of any such nomination the category will be determined by AMPCOM, on the basis of the predominant format of the service.
- 4.5 For the purposes of clause 4.2, where more than one performer is involved in a musical performance, the musical items concerned shall be regarded as being performed by an Australian if the performance is predominantly by one or more Australians.

### CHANGES TO FORMATS

- 4.6 A licensee must notify AMPCOM by written notice (through CRA) of any material change to the format of a radio service operated by it, having regard to the tables in Clause 4.3, no later than 7 days after the change is made and must provide AMPCOM with all documentation reasonably required by it in relation to the change to the format.
- 4.7 The ABA notes the role and objectives of AMPCOM set out in Attachment 'A' hereto (on pages 6 and 7 of this report).

- 4.8 In this Code of Practice 4:

**ACMA** means the Australian Communications & Media Authority.

**AMPCOM** means the Australian Music Performance Committee.

**AMPCOM Monitoring Period** means the six month periods from January to June and July to December each year.

**Australian Performance Period** means the total period of 126 hours occurring in each week between the hours of 6.00am and 12.00 midnight daily.

**Australian** means a person who is a citizen of, or is ordinarily resident in, Australia.

**Music** or **musical item** does not include music in advertisements, program promotions, station promotions or theme or bridging music.

**New Australian Performance** means a sound recording of a previously unpublished performance of a musical item performed by an Australian which has been on sale to the Australian public for a period not exceeding 12 months from the date which is recorded in "The ARIA Report" as the date of its initial release in Australia.

**New Release** means a previously unpublished sound recording that has been on sale to the Australian public for a period not exceeding 12 months from the date which is recorded in "The ARIA Report" as the date of its initial release in Australia.

# CONTENT RETURN

To follow is the commercial radio industry's music content returns for the period 1 July 2004 to 30 June 2005, as supplied to AMPCOM by CRA. These tables contain records of the average proportions of Australian music broadcast by individual broadcasters with respect to the formats and categories outlined in The Code.

## OF NEW AUSTRALIAN MUSIC

The following tables of local release information have, as in the past, been provided to AMPCOM by ARIA. The figures are based on the best available information ARIA can compile from its database and are subject to the following track number assumptions:

- (a) 6 tracks per single
- (b) 14 tracks per album
- (c) 30 tracks per multiple album, and
- (d) 20 tracks per compilation

Please note that the genre classifications in the figures below are determined by ARIA members as they update the details of their catalogues to ARIA.
